DR-1X Installation and Upgrade Program

First and foremost, *Yaesu would like to thank you* for your active interest in our DR-1X/System Fusion Digital Line of products. The System Fusion program is the result of many hours of market research, development and testing to provide our customers with one of the most remarkable products in the Amateur Radio Community today; a 50 Watt, Dual Band, Dual mode repeater system with both analog and digital capability offering true integration with all aspects of VHF/UHF Repeater infrastructure, including current onsite controller hardware.

We believe that the DR-1X System Fusion Repeater and transceivers provide important new features that contribute to the community by allowing operators to smoothly transition between Analog and Digital operation on either the VHF (2m) or UHF (70cm) bands. The ultimate goal of System Fusion is to provide Digital integration without creating a need to upgrade or replace existing equipment.

To show our appreciation to *all* of our customers, Yaesu would like to extend to you a special opportunity to purchase a *Production DR-1X repeater at a substantially discounted price*. Your club will also receive several promotional items (listed below) to help promote System Fusion within your group and community.

If your club participated in the Beta program and wishes to KEEP the DR-1 Beta unit you were issued rather than return it, for an additional \$200 (\$500 total) you may keep your DR-1 and you will still receive a DR-1X.

Thank you once again for your participation and Interest in Yaesu Products!

Participant Requirements

- Agree to not resell any hardware for at least 1 year.
- Reside and operate the equipment in the Continental United States or Canada
- Place DR-1X Repeater on the air operating in the area listed on your application.
- A desire to create a better Amateur Radio Repeater System!

Pricing and Term and Conditions

- Provide Yaesu the application form, Call sign, TX/RX frequencies, and CTCSS Tone setting information for the proposed repeater.
- Yaesu will sell a DR-1X to your club for the price of **\$500 USD**.
- This program is valid from *September-15, 2014 to March-31, 2015*.
- Club will receive *10 Free System Fusion Shirts* with embroidered Club call-sign.
